# RD2 SEMINAR 2026

17 June 2026

1.15 - 2.30 pm

ENB conference area, room PACIFIC

**Anne Henke**, Marine Geosystems (MG)  
'Baltic Sea algae habitats – mapping German  
EEZ Reefs and insights from AL652'

**Svenja Frey**, Biogeochemical Modelling (BM)  
'Opposing impact of climate perturbations on natural  
and anthropogenic carbon in the ocean under CO<sub>2</sub>  
emission reversibility'

**Kai Schulz**, Biological Oceanography (BI)  
'Five Years of Pelagic Ocean Alkalinity  
Enhancement Impact Studies: Lessons learned  
and Knowledge Gaps'

**Niklas Helle**, Chemical Oceanography (CH)  
'Development of an in-situ sensor for  
autonomous, high-resolution tracing of ammonia  
levels in marine waters'
